

Dear Mr. Mustermann,

An exciting year 2010 is coming to an end and Hilscher is satisfied with the good results achieved. During the first half of 2010 market expectations about the recovery in the global economy were still cautious; however the year's second half clearly proved to be a great success. The basis for Hilscher's brilliant performance was due to the acyclic corporate policy during the tense year 2009 and the great commitment of the entire workforce.

As a thank you for your confidence in Hilscher, we prepared a **final highlight of the year** for you.

### Reference implementation PROFIdrive profile

- Hilscher offers its base implementation of the profile in source code for use free of charge and manages the further development for the quasi-standard implementation in drive technology
- **Exchange ideas and share your knowledge with experts from the motion & drive industry**
- Implement profile with Hilscher netX technology or any other PROFINET ASIC
- **Kick-off meeting on 27<sup>th</sup> January 2011** at Hilscher in Hattersheim (Germany) presenting the basic structures and functions of the drive profile
- **Free registration** for the kick-off meeting and other related project information available here: <http://www.industrialnetworx.com/profidrive-profile>

As a strong partner for industrial communication solutions "made in Germany" Hilscher plans to further simplify the solutions based on netX and deepen the relationship with existing customers. Hilscher is continuously investing in its product portfolio and in 2011 you can expect many trend-setting products developed by Hilscher.

#### Product Highlights 2010:

- **netHMI:** The HMI for OEMs with visualization, CoDeSys and all networks
- **netJACK:** By hand easily exchangeable communication module for embedded designs with PCI-Express, SPI- or DPM-interface for Fieldbus and Real-Time-Ethernet
- **netX10:** new network controller with Tri-core architecture for the main Fieldbus and single-port Ethernet protocols
- **OPC Server:** standard data interface to Fieldbus and Real-time Ethernet systems for cifX PC cards with symbolic access to S7 projects
- **IO-Link Master Technology:** controller / protocol stack / DTM for configuration / Fieldbus interface for your Fieldbus-IO-Link Gateway

The Hilscher customer centre is glad to assist you by telephone or e-mail with the latest Hilscher product portfolio and with information on the availability of new products. We wish you a merry Christmas, some quiet days to relax and a lot of power for a new, strong and successful year 2011!

With best regards,  
**Hilscher Gesellschaft für Systemautomation mbH**

[See more information about Hilscher on the Internet.](#)

**Hilscher Product Portfolio:**

PC cards, OEM modules, Gateways, ASICs, as well as engineering services  
e.g. FDT/DTM development service, netX design in & production service.
