

Dear Mr. Doe,

From world politics point of view, the first six months of 2011 were pretty impressive: nuclear disaster in Japan, riots in the Middle East and Euro-crisis. Not as turbulent, but quite as impressive are the 2011 half-year figures from Hilscher. Compared to last year, revenue and order intake have increased significantly and we fully expect that the positive trend will continue.

Hilscher Highlights 1st half 2011:

New approach to technology development with Web 2.0:

On January 27th 2011 the first community project "reference implementation PROFIdrive profile" was launched successfully and the alpha version finished in time for the Hanover Fair 2011. Registration and other project information are available [here](#):

Expansion of corporate headquarters is in progress - 4000m² additional space:

Summer months July to September are used for moving into the new building, providing enough space for 200 colleagues in total.

ISO 14001 environmental certification completed successfully

Start of preparations for the "netX User Day" on October 11th 2011 in Wiesbaden:

Mark this date in your calendar today, because during this event you will get interesting technical and strategic information about netX technology.

The Hilscher customer centre is glad to assist you by telephone or e-mail with the latest Hilscher product portfolio and with information about availability of new products. The next edition of the Hilscher newsletter will appear in September 2011 and until then we wish you a wonderful summer.

With best regards

Hilscher Gesellschaft für Systemautomation mbH

[See more information about Hilscher on the Internet.](#)
